

The Centre hospitalier universitaire de Sherbrooke (CHUS) is near the Sherbrooke population. It offers specialized and ultra-specialized care in cardiology, neurosurgery, oncology, and neonatology, to the population of the Eastern Townships, Central Québec and part of Montérégie region. It employs nearly 5 800 people, comprises 588 doctors, 2171 students and trainees, 575 residents and 1014 volunteers.

CLINICAL PERFUSIONIST

PERMANENT FULL TIME POSITION (35 hrs)

The CHUS counts 11 distincts programs, including the surgical care program. It comprises 2 operating rooms situated in two sites : CHUS Fleurimont and Hôtel-Dieu for a total of 26 301 surgeries a year, 450 of which are cardiac surgeries.

JOB OPPORTUNITY DETAILS

- Under medical supervision, the clinical perfusionist is responsible for providing a circulatory bypass to patients, using a vital support system in order to maintain certain physiological functions. He supervises all different clinical parameters of the circulatory bypass.

REQUIREMENTS

- To possess a valid certificate in extracorporeal perfusion technology according to current regulation.

OTHER BENEFITS

- Free services from Préférence Estrie; a welcoming organisation for you and your family (rehoming help, support in getting family services, support in re-employment for your partner, etc.)
- A quality of life in the beautiful Eastern Townships.
